II H	Lists of different types of prisoners		

It should be noted that all 5 groups are not always represented in each camp because the ITS collection of documents is necessarily incomplete.

To find a particular document, first establish from this page the sub-division in which this type of document is listed, then find the camp in the index and turn the pages until you arrive at the group and the sub-division.

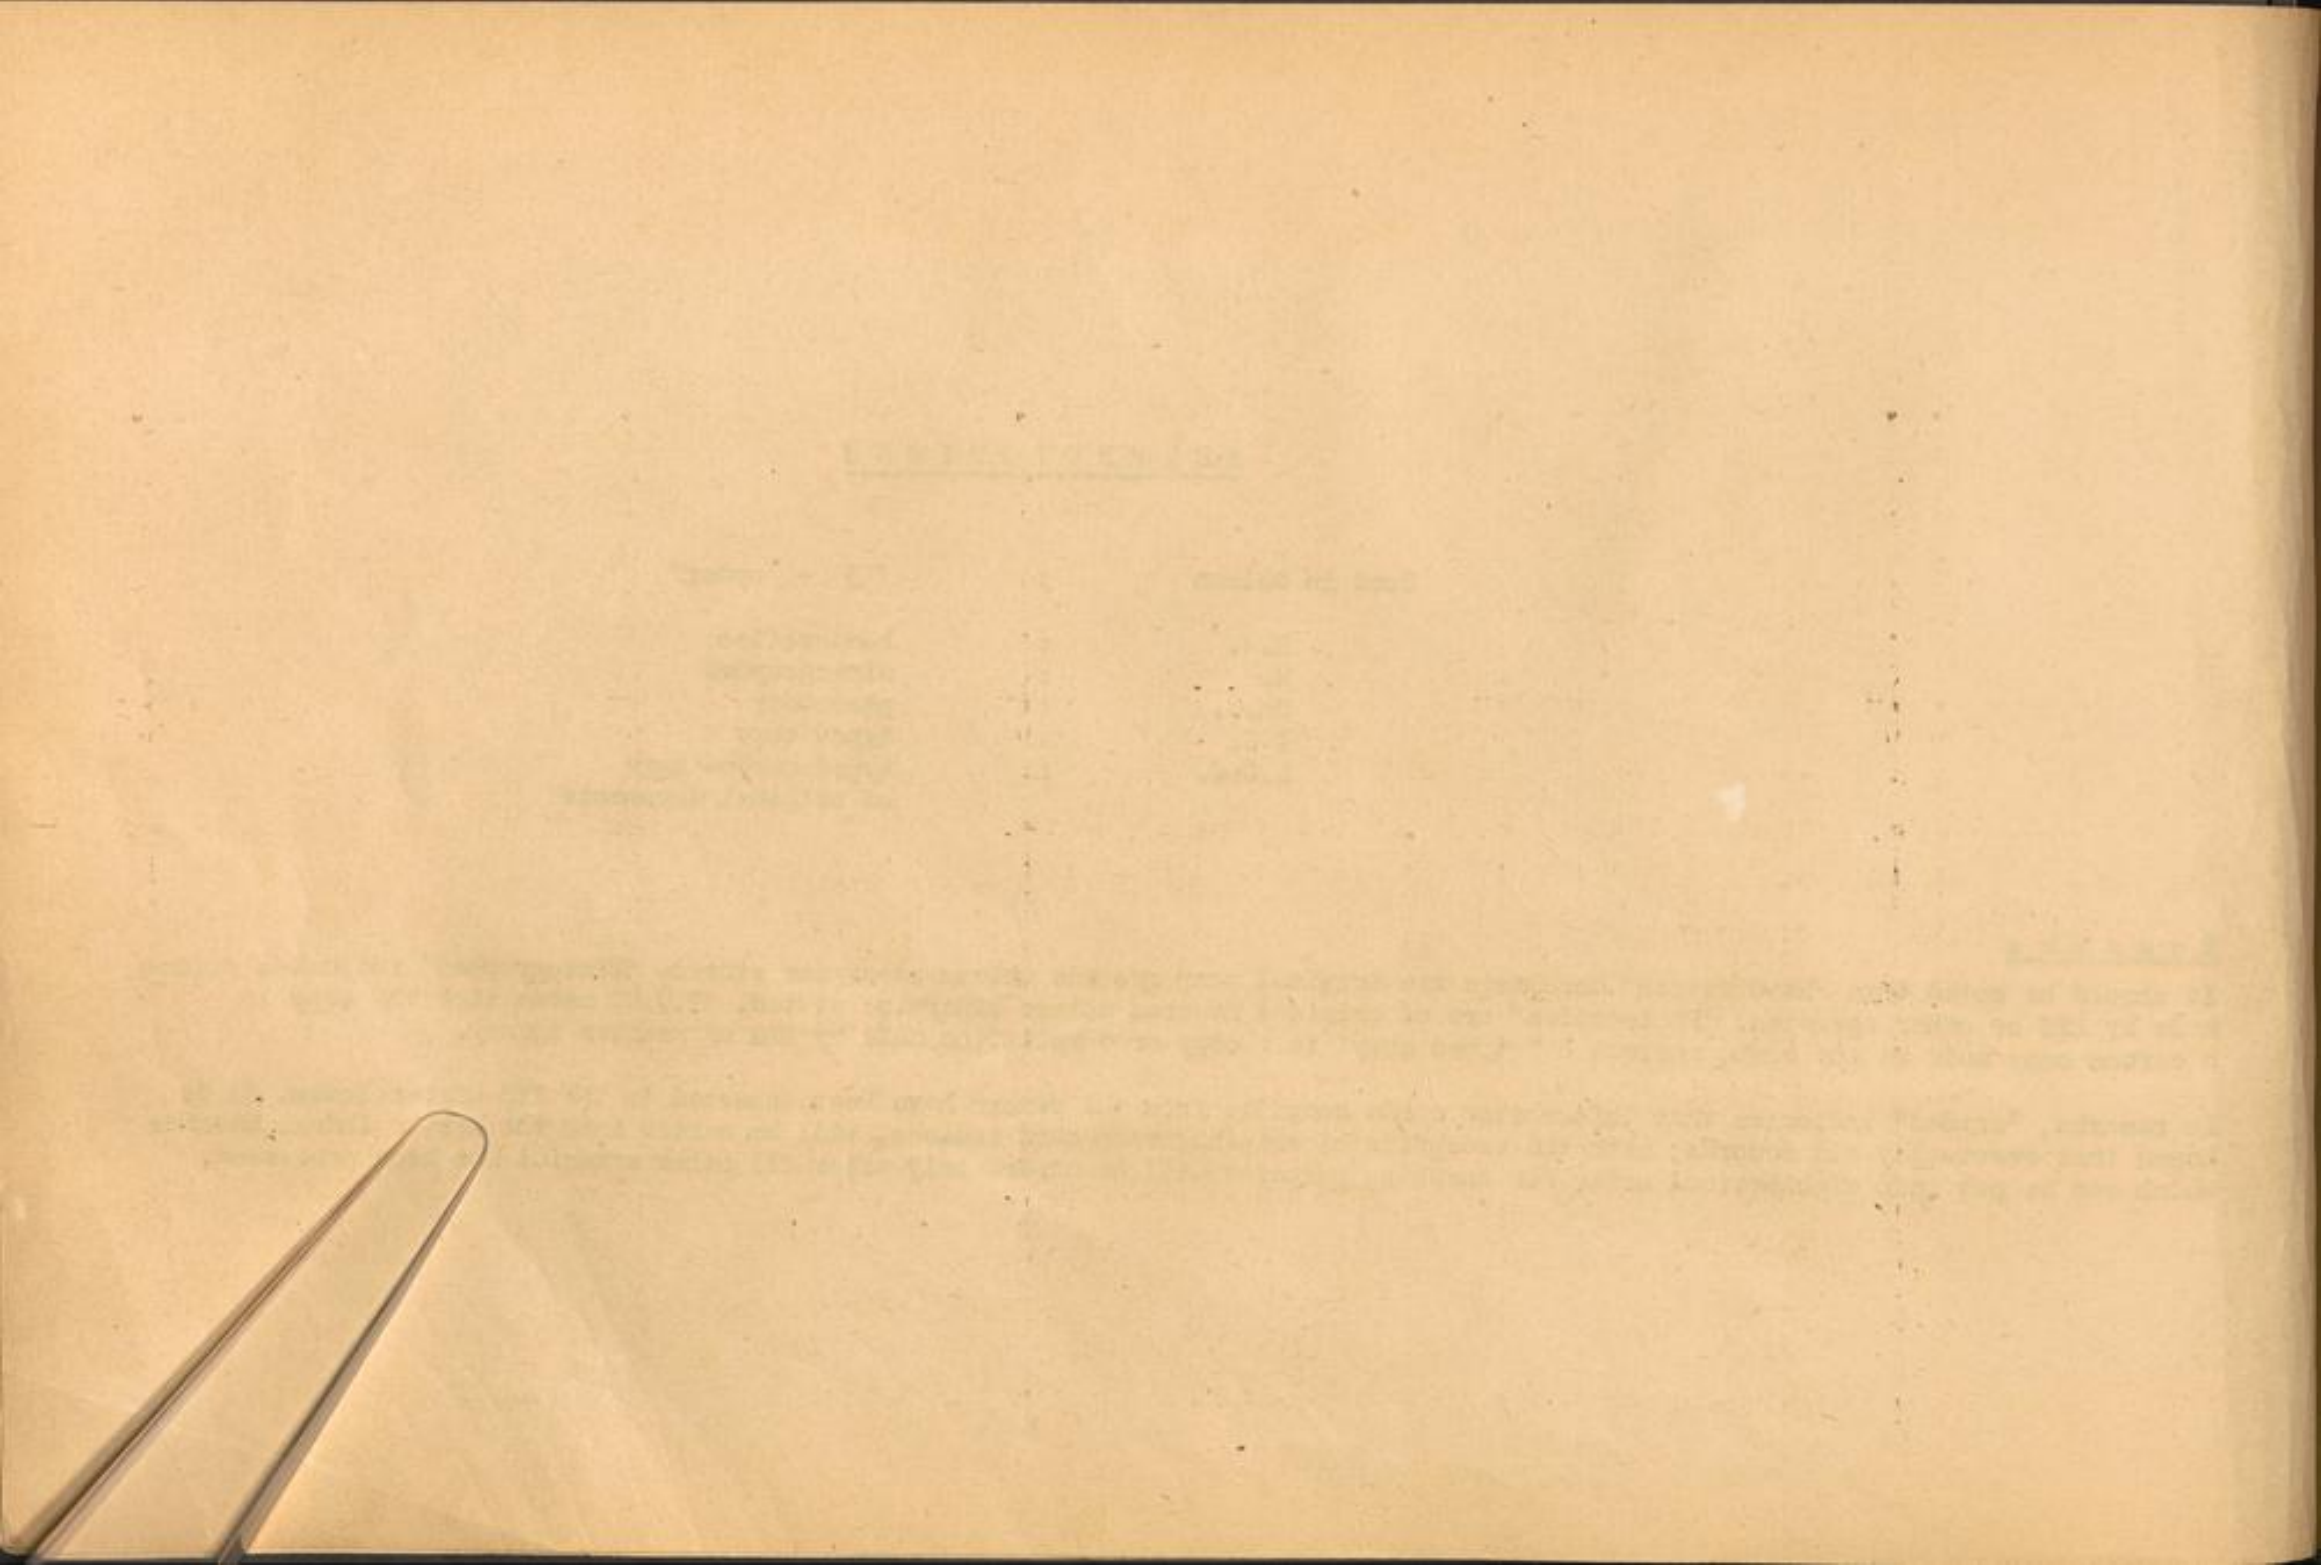

### ABBREVIATIONS

Used in column	:	" 3 - order"
H.W.	:	handwritten
M.	:	mimeographed
Ph.C.	:	photocopy
T.C.	:	typed copy
T.C.C.	:	typed carbon copy of original documents

### Remarks

It should be noted that "handwritten" documents are original camp records unless otherwise stated. "Mimeographed" indicates copies made by ITS or other agencies. "Photocopies" are of original records unless otherwise stated. "T.C.C." means that the copy is a carbon copy made in the camp, whereas a "typed copy" is a copy or compilation made by ITS or another agency.

In remarks, "carded" indicates that information cards compiled from the record have been inserted in the ITS Master Index. It is hoped that eventually all records, with the exception of original camp card indices, will be carded into the Master Index. Records which can be put into alphabetical order for checking purposes will be carded only after all other material has been processed.

CG DACHAU

Note: The Dachau material on loan to I.T.S. from the US Army is not all original camp material only. It includes many records compiled by the " after liberation " camp administration, e.g. Evacuation Hospital reports, burial reports, correspondence of the Dachau International Information Office. Also many of the original records have been added to or completed after liberation date but as this work was done by former camp "Schreibstube" employees it can be assumed that the information given is authentic.
